"A-Z Product Solutions for Trade and Industry"

Our Rodding accessories are designed to suit continuous rodders, or sectional hand rods in all sizes.

When you purchase a continuous rodder, the unit will be supplied with a screw on hauling/attachment eye for your convenience. This can easily be removed in order for you to attach a different accessory when required.

When you purchase sectional rod, it will be supplied with a male connector on one end and a female connector on the other. All the available accessories are attached to the male end of your hand rod/s as required.

The available accessories are..

- 1/ Hook and Loop sets (may be purchased separately)
- 2/ Flexible Spring Leaders
- 3/ Solid Leaders (such as the candle flame in the photograph below)
- 4/ Removable Hauling/Attachment Eye (1 x supplied when original endless rodder purchased)
- 5/ Sand Scoops (recommended only for 22mm sectional hand rods)
- 6/ Repair kits, inline couplings, male and female couplings.
