"A-Z Product Solutions for Trade and Industry"

Conduit Spreader

Used on all underground PVC conduit structures for spreading conduit to provide greater access to the cables within so remedial or other work can be carried out. The 600mm long scissor action handles with locking slots will hold the jaws open and locked. The spreader jaws are flat faced and provide protection to the conduit surfaces.

Jaw spread up to 150mm

Galvanised finish as standard. Weight 4.5kg

Order Code: ATM-CS
