

PROVING and CLEANING MANDRELS - STANDARD, NBN, AND CUSTOM SIZES

Standard Provers from 12mm to 190mm

Standard Cleaners from 38mm to 190mm

Contact our sales department for a detailed listing of available sizes off the shelf. Many times we are asked to manufacture both cleaning and or proving mandrels to a specific size.

Rule of thumb for Proving Mandrels is to be no more than 12mm or 10% smaller in diameter than the conduit ID

Please check with your power or comms authority for exact specs on proving mandrels as these often vary.
