	27.9 cm

FEATURES:

- The jack boasts the lightest weight of any hydraulic track jack in its class at 43.5 lbs / 19.7 kg
- The jack is available in two different models including the narrow base bridge version, to suit all of your track jack applications
- One piece forged aluminum base upright and protected plunger/seals and pump pivot, extends the service life of the jack
- An accessory anchor point is located in the top of the jack to accept: extensions, flex heads, wedge heads, and spreader toes, for a wide range of uses including lifting or moving rail and ties/sleepers. It is ideal for lining and gauging applications
- 10 tons of lifting force
- Internal reservoir bladder allows operation in any position

THE LIGHTEST AND MOST DURABLE TRACK JACK ON THE MARKET . . . THE POWER OF HYDRAULICS
