

LINESMAN TEST SET NO.2

The Linesman test set No.2 is a portable voltmeter/ ohmmeter used for testing telephone lines from terminal points such as cabinets, pillars and cable boxes.

The unit is very user friendly and has a large scale for clear and effective reading of measurements. The unit is housed inside a sturdy carry case making it rugged enough for use in trying field conditions.

Features include volts, megaohms, k-ohms, and low ohms to a colour coded scale, AC detection, push button line reversal, and rotary selector switches. There is also multi-flexible test leads included and the unit is built to Telstra and Australian standards. (AS1042)

The operating temperature range is 0-60 degrees "C" and the unit is powered by a single 9V battery. (included)

Manufacturer's conditional warranty of 12 months and the unit weighs approx. 1kg

NOTE: Unit now comes packed in a sturdy Pelican Case
