**"A-Z Product Solutions for Trade and Industry"**

Our Open Ended Galvanised Cable Grips are made from 2 strand galvanised wire. They are also available in stainless steel if required.

Most Suited for Cable Joining or Splicing Applications. Welded at both ends to provide extra gripping strength. For cable diameters 10mm - 40mm

Code	Cable Diameter mm / Grip Length mm	Tensile Strength
ATMOBE010	10-14 / 700	1.7kN
ATMOBE014	14-19 / 800	3kN
ATMOBE019	19-28 / 1000	5kN
ATMOBE028	28-40 / 1200	8kN
