“A-Z Product Solutions for Trade and Industry”**Cable Tray Vertical Cable Roller**

Code: VAN-CTR080

The Vertical Cable Tray Roller is mainly used when you need specific directional placement of your cable/s that are situated on the cable tray.

Supplied with two vertical dog bone rollers the cable is captivated therefore the cable/s can be placed in a preferred location on the tray.

The top roller is removable via a split pin through the holding bolt which makes it quick and easy to place the cable inside the twin rollers.

It can be mounted directly to the tray and is especially handy at junction points or when negotiating bends.

The maximum overall cable diameter you can place between the rollers is a generous 90mm. The unit weighs approx 1.5kg and replacement rollers are available if required.
