

**SENSEAR ELECTRONIC EARMUFFS**

The need to communicate effectively in high noise environments makes the new SM1/x range of earmuffs from Sensear an obvious choice. SM1 and SM1x (Bluetooth®) earmuffs have all the features expected from premium hearing protectors with the addition of groundbreaking new technology that now delivers speech quality and functionality that sets a new benchmark for communication-enabled hearing protection.

Featuring rugged design for heavy duty and general use, SM1 and SM1X earmuffs are simple to use, extreme comfort hearing protection devices that allow clear communication beyond 85dB(A) via face to face, two-way or mobile phone (SM1x only) and most importantly, without the need to remove hearing protection.

Combining Bluetooth technology with advanced SENS@technology, the SM1X earmuff offers the highest level of voice communication available on the market, with optimised hearing and speech clarity when used with mobile phones or 2 way radios.
