EZ100 CONDUIT BLOWING/RETRIEVING GUN

The Zeitler EZ100 Conduit blowing/retrieving machine makes light work of preparing larger conduits for cable readiness. Included in your unit are drawline carriers ranging from 50mm through to 150mm, main conduit seal of 175mm to ensure a comfortable seal on large conduits, a retrieval adaptor, approx 2000m of drawline with a tensile strength of 24kg, , shoulder strap and sturdy foam padded carry case.

The unit is rated at 240V and 4.7A. The unit is fitted with a 2m rubber flexible cable and transparent 3 pin 10A plug top. If used on a portable generator the recommended size is not less than 2.5kVA The unit is supplied with an operators user manual, and safety and maintenance procedures. The warranty period is 12 months. The Zeitler range is manufactured in Switzerland.
